

# Help Fight Rising Heat Bills this Winter!

## Krystal Planet can help...

Natural Gas (1997 to 2005)

In September 2005, the U.S. Dept of Energy (Energy Information Administration) forecasted home heating bills this winter will rise\* by up to 71% for natural gas, over 40% for heating oil and propane, as well as a 16% jump in electricity rates. The average home will spend \$600 more this year than last year due to record fossil fuel costs...

krystal planet

# Krystal portable furnace

## Turn off your Furnace this Winter!

- Heats 800 square feet comfortably with no combustion, flames or fumes
- Uses less electricity than a coffee maker
- Healthy comfortable Infrared heating
- Quiet operation
- The Krystal Portable Furnace is the latest technology formulated by over 20 years of reliable safe heating that has been popularly known as "Sun-Twin" technology
- Does not dry out the air - uses humidity in air as a heat conductor, but does not remove humidity from air
- Very low maintenance, washable lifetime filter, no moving parts (except fan)

### Specifications

Applications	Heats 800 to 1,000 square feet
Volts	110V
Emissions & Fumes	0% (none)
Heat Emitted	5118 BTUs via superior infrared heat
Dimensions, Weight	16"W X 24"D X 18"H, 65 lbs.
Voltage	1500 Watts, 12.5 amps
Energy Efficiency	10x more efficient than a space heater
Available colors	Oak or Metal
Average lamp life	Four 375 watt lamps last 5000 + hours (3 – 5 years of average heating use)
Compliance	UL listed, C.S.A. and E.T.L. electrical approved
Warranty	3 years, including lamps; 1A Insurance Rating

HER 900  
Price: \$499.00

### Will my electric bill increase?

If you use the heater for 6 hours a day and your electric rate per Kilowatt hour is \$.08 per hour, your heater will consume 1.5 kilowatts (1500 watts) per hour or 9 kilowatts per day. Take 9 kilowatts X \$.08 per hour. **You are only spending \$.72 per day or \$21.60 per month for one Krystal Portable Furnace!**

It's the Right Thing to Do...

## Krystal Portable Furnace: Testimonials

"This is the best heater that we have found and the safety factor around small children and older adults appealed to us."

Homeowner, Loveland, CO

"My duplex is 800 sq. feet and with my portable infrared heater, my gas bill was never over \$20 per month."

Homeowner, Overland Park, KS

"Our display home located in Butte, Montana, heated with two units saved us almost \$1000 over the course of one winter."

Homeowner, Butte, MT

"I had a cold basement and had no economical way to heat it until I bought this product. Now it's warm and comfortable. I think the this heater is a terrific product!"

Business Executive, Springfield, MO

"We heat two schoolrooms with these products and we believe that they are the safest, most efficient and economical means of heating we've ever found. We have children around them all day long and we're very secure in their safety."

School Director, Hendersonville, NC

"We use two units to heat the showroom floor. I think the this product is the real key to our heating comfort."

Rental Company Owner, Tupelo, MS

"Last year our utility bills were approximately \$360 a month. This year we used the Solar Comfort unit and our utility bill average is \$90 a month. We feel it's great to be able to afford to live comfortable."

Housewife, New Wilmington, PA

# Krystal Portable Furnace: Product Specs

A quiet, energy efficient Krystal Portable Furnace, circulates and recycles heated air through the Lamp Chamber providing even heat from floor to ceiling.

The exclusive design of the heat exchanger absorbs heat energy from four powerful, long-lasting infrared industrial lamps, converting the energy to heat for transfer to the air. This heating approach protects recycled air from loss of humidity.

Clean, comfortable heated air gently flows into the living area, mixing and stabilizing air at the floor for more even temperature distribution, and more effective floor level circulation and recycling.

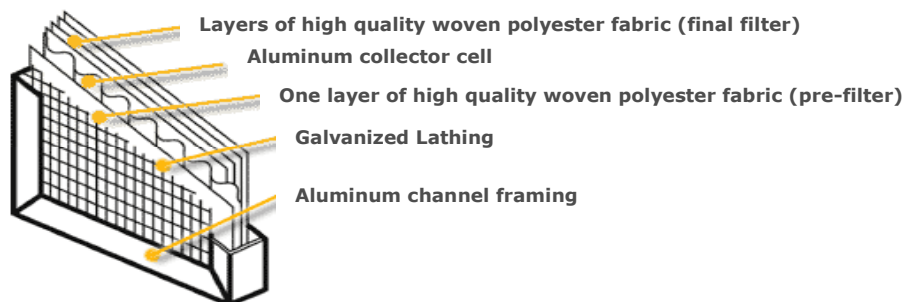

Maximum heat transfer occurs in the heat chamber as the air passes around and through the hot tubes of the heat exchanger at 115 degrees, increasing temperature for re-entering to living area.

## Long-Life Low-Maintenance Components

A	Air Inlet – Return air enters rear of unit	G	High-Limit Safety Switch – Will turn unit off if temperature of Lamp Chamber exceeds 190 degrees
B	Fan – Permanently lubricated, maintenance free fan moves 120 cubic feet of air per minute. Continuous-Duty Rated	H	Fan Control Switch – Operates fan motor when temperature in Lamp Chamber reaches 90 degrees.
C	Lamps- Four unfiltered infra-red lamps	I	Exclusive Heat Exchanger – Metal plate with multiple rows of hollow venturi-tubes
D	Lamp Chamber – Non reflective steel chamber for maximum absorption of infra-red light energy	J	Air Outlet Grill – Heated, energized air exits from front of unit
E	Thermostat		
F	Solid-state Control Relay – Turns lamps on or off when signalled by thermostat		

### Lifetime Filter:

The Krystal Portable Furnace Heating System comes equipped with a washable Polytron static filter which is easy to clean.
